

THE UNICELL ADVANTAGE

ONE OF A KIND

Each Unicell van body is created using our patented programmable fiberglass application machine, which enables Unicell to design and build van bodies that are more aerodynamic and better styled than conventional methods and materials allow.

RUGGED

Unicell's unique construction is built to withstand abuse: our fiberglass bodies are tougher and more puncture resistant than .040" aluminum bodies or 1/2" plywood, leading to fewer ugly dents and costly repairs.

SLEEK

Our bodies are manufactured from one-piece molded fiberglass, which means no seams, caulking, or unsightly rivets, just an uninterrupted, smooth, glossy white gel-coat finish. Unicell bodies look great on their own, or provide the perfect canvas for vinyl graphic wraps.

LIGHTWEIGHT

Unicell presents the best van body choice pound for pound: our bodies are as light as any aluminum sheet and post design but considerably stronger, and they are far lighter than any FRP construction.

LONG-LASTING

Unicell bodies are built to last and backed by our 5-year limited warranty. Our fiberglass design makes repairs quicker and easier than for other constructions, which puts you back on the road sooner. Unicell's reputation for quality results in consistently higher value upon resale.

The AeroCell Classic

The AeroCell Classic's aerodynamic design offers a sleek look while providing better fuel efficiency and a smoother, quieter, ride. Since its introduction in the 1990s, the AeroCell classic has won admirers from coast to coast. Any customer with total cost of ownership in mind can't afford to ignore the significant fuel savings the AeroCell Classic provides over the life of the vehicle.

The Perfect Tool For

SELF-STORAGE

PAINTERS

LANDSCAPERS

HVAC

CONTRACTORS

Standard Features

AERODYNAMICS

Built-in air deflector with storage
Curved, aerodynamically designed lower side skirts

BULKHEAD

Bulkhead with 10" setback
Standard Sliding bulkhead door in the front wall

BUMPER

Galvanized Steel Grip-Strut

DOOR

Roll-up rear door

EXTERIOR

Fiberglass Construction
Gel Coat Surface
Fiberglass Rear Frame
Steel Sill Protection
Anodized Aluminum Rub Rail
HD steel understructure
Protective undercoating
Stainless steel rear grab handles
LED Tail Lights

FLOOR

1-3/8" spruce plank flooring painted grey

INTERIOR

3/4" slats on side walls
Hoop Posts
Weatherproof wiring system
24" Dome LED light with timer switch
Leak-proof integral skylight
